Forecast for Sunday 28 Jul 2024

Weather: Lengthy clear periods through the early hours with mist and fog forming in the valley bottoms. This lifting and quickly clearing after dawn to leave a mostly sunny day with just a little fair weather cloud bubbling up. After a cool start, temperatures quickly rising and feeling very warm in the sunshine by the afternoon. Staying fine through the evening.

Chance of cloud-free hill tops above 600m: 80% becoming 100%.

Low cloud and visibility: Fog and very poor visibility in some low lying valleys at first, this lifting and possibly giving some ribbons of cloud around 300-500m for a few hours. Thereafter widely very good visibility with distant hills and landmarks clearly visible and any cloud well above the summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

High or very high UV levels with strong sunshine so sun protection is advised. Much warmer than of late too, so staying hydrated and taking plenty of water is also advised.

Recent rainfall: measured at Neuadd: altitude 353m
